

Availability List – 25/11/2010

Yamasaki Nisai Ai-Goromo

A – might be male

B, D, E = female

C = male = TAKEN

Group Y09 – 43-46 cm R5775 each

Sorry for water distortion over A and B. Video on YouTube at <http://youtu.be/APqoxhxqRwE> There are also Yamazaki Koromo to view at http://youtu.be/_T0zRfaRGvw They are Sansai and sell for about R13,000. They are almost 60cm or R220 per cm. Then there are Ai-Goromo Nisai from Hiroi Isawa at <http://youtu.be/iIYAj85rSB4> They are R5984 each

Very few Koromo breeders left in Niigata and prices were very high. Note: We write Koromo, but the 'K' becomes 'G' when the word is preceded with another like Ai-Goromo.
